Associated Students University of the Pacific (ASUOP)

Mission

The Associated Students was formed in 1899 and since that time has served as Pacific's student government. In other words, ASUOP is your representative body to the University and the community.

Associated Students is the student government of the University of the Pacific (ASUOP). It is completely operated and funded by University of the Pacific students.

At its core, ASUOP has a dual mission: 1) to serve as an official channel for the free exchange of ideas and opinions among the administration, faculty, staff, and students; and 2) to provide services and Student Leadership & Involvement across campus in order to enrich the social, cultural, and educational aspects of university life.

Government

ASUOP has three branches: an Executive, a Senate, and a Judiciary. These three branches work together to ensure that the student voice is heard in University governance, supply valuable services to ASUOP members, and provide the opportunity to be involved in student life at Pacific.

President's Cabinet

The Cabinet members assist the ASUOP President and Vice President as assigned. This Cabinet also serves in an advisory capacity to the ASUOP Senate on programs and policy that are needed within the student body to efficiently meet needs, and they are responsible for the day-to-day management of the government's operations. The Cabinet members are appointed by the ASUOP President, with approval of the ASUOP Senate. They are:

- *Arts & Entertainment Commissioner*
- *Attorney General*
- *Campus Affairs Commissioner*
- *Cultural & Community Commissioner*
- *Productions Commissioner*
- *Public Relations Commissioner*
- *Student Involvement Commissioner*
- *Treasurer*

Each may appoint deputies or assistants to help them in the development of programs or services within their areas of responsibility. These ASUOP officers all maintain office hours and have mailboxes in the ASUOP Office, located on the second level of the McCaffrey Center directly across from the Summit Cafe. The ASUOP President chairs the Cabinet meetings. The Assistant Director of Student Leadership & Involvement and the ASUOP Senate President pro-tem, are ex-officio, non voting members.

ASUOP President: Brian Dugoni

ASUOP Branches

ASUOP Senate

The ASUOP Senate is the legislative branch of student government. A representative is elected during the Spring Semester from each of the seven schools and colleges, three are elected “at-large.” The ASUOP Vice President serves as chair of the Senate and the ASUOP Senate President Pro Tempore as vice chair. The ASUOP President, the Attorney General, the ASUOP Treasurer, and the Director of Student Leadership & Involvement serve as ex-officio, non-voting members.

The Senate forms the overall policy and goals of ASUOP, approves the annual budget, enacts legislation relating to student issues, and serves as a conduit for information flow from the students to the University administration.

Meetings of the Senate are open to all members of the student body and guests are invited to make presentations. A special “Open Forum” section of the meeting is devoted to questions from the audience.

ASUOP Judiciary

The Judiciary handles infractions and interpretation of the ASUOP Constitution, Codes, and approved Senate Legislation. It is composed of a Chief Justice and two Associate Justices. One is appointed by the President without Senate confirmation, one is appointed by the President with Senate confirmation, and one is appointed by the Senate President Pro-Tempore. The Justices elect the Chief Justice from amongst themselves.

Office of Student Leadership & Involvement

The Office of Student Leadership & Involvement, a department within the Student Life division, is concerned with the total development of students. Its primary purpose is to enhance the quality of campus life through co-curricular activities.

The Student Leadership & Involvement Staff believes that people learn by doing. Through involvement in co-curricular activities students have the opportunity to practice what they learn in the formal academic setting as well as develop effective communication and leadership skills. Venturing out beyond the classroom allows students to grow both personally and professionally, thus making their total educational experience complete.

The Office of Student Leadership & Involvement offers the opportunity for such experiences to be gained through involvement in various co-curricular programs including participation in institutional governance, clubs or organizations or special committees, recreational or cultural endeavors and the planning and production of programs of entertainment and enlightenment.

Leadership Programs

Passport to Pacific

The Leadership Passport is a Learn & Lead program based upon the concept of “servant-leadership” and the Social Change Model. It is understood that leadership is a process of engagement with one’s self and others. Students are expected to effect leadership, as a way of life, a process rather than a position of authority. Developing self-awareness is the first essential step on the journey toward becoming an effective leader. The journey continues by building a foundation based on ethical principles of social justice and a commitment to service and the common good.

The Student Leadership Development Series is open to all Pacific students. You should plan to register early in order to receive your Passport prior to your first workshop. You may register either at the Office of Student Leadership & Involvement in advance or at your first workshop.

Leadership Conference Committees

Each year, the Office of Student Leadership & Involvement sponsors, in conjunction with ASUOP, three leadership conferences for the benefit of Pacific students. Traditionally held each semester on the last Saturday in September, the first Saturday in February, and the first Saturday in March, the conferences feature a keynote speaker, workshops on general (and specific) leadership skills, and the chance to network with other student leaders.

The committee sets the fees, arranges for speakers, organizes the program, promotes the event, and sees to on-site operations. If you would like to help out with the committee, give our office a call.

Leadership Tip Sheets

Produced annually by the Office of Student Leadership & Involvement, these publications offer advice on topics such as: How to Run an Effective Meeting, Delegation, Robert’s Rules of Order, Fundraising, Team Building, Recruitment and Retention, etc. Feel free to stop by the office to pick up some information.

Club Services

Student Organizational Directory (The Guide)

Each October, the Office publishes a directory of all registered student organizations and councils on the Pacific campus. The Directory's list title, purpose, and contact information and serves as a marketing tool to inform students of the various opportunities available to them. The second Thursday of each school year is the deadline for including your group in the new directory. The name, purpose and contact information for each registered organization is listed in the directory. This serves as a useful tool to inform students of the various opportunities available to them.

Student Officer Handbook (The Source)

Published yearly each September, the Office produces a Student Officer Handbook, listing services and consulting organizations to support student groups in their success. This book is distributed to all Officers who attend the yearly club orientation workshops. Chapters include Funding, Advertising, Consulting Department, and Leadership Tips.

The Advisor's Guide

Interested in advising a student group? The Office of Student Leadership & Involvement produces a one-page brochure that details the pertinent information you need to know for advising a student group. This includes the benefits that co-curricular activities have on academic achievement, how effective advisement of student organizations strengthens the development of a student organization and its members, as well listing basic roles and responsibilities for the advisor.

Advisor Workshops

In an effort to facilitate the development of student organizations and their advisors, opportunities will be provided for advisors to attend developmental programs aimed at enhancing the skills necessary to effectively lead and advise organizations.

The Office of Student Leadership & Involvement coordinates 6 seminars throughout the year (3 per semester). Each seminar will provide time to clarify specific questions each advisor may have as well as serve as an opportunity for advisors to connect and learn best practice strategies from each other. Topics will include such things as, an in-depth discussion of advisor expectations, the appropriate roles of an advisor, and skills for advisors to teach.

Student Activities Fair

The Student Activities Fair is annually held on the third Thursday of each Fall semester. This event offers a festive atmosphere where student clubs can market their organizations to well over 2000 students. Activities include campus BBQ, table and chairs for each participating student club, and novelty games throughout the day. Registration is available at the Office of Student Leadership & Involvement in the McCaffrey Center.
